

Special Issue on Coupled Phenomenon in Environmental Geotechnics

This Special Issue will receive the manuscripts from the authors of the selected papers among those presented at the **Third International Symposium on Coupled Phenomenon in Environmental Geotechnics - CPEG2020** organized by ISSMGE TC215. The manuscript should be the updated and extended version with roughly 30% increment, clearly describing the difference(s) from the symposium paper and citing it. The manuscripts will be subjected to the review process of the journal. Article Publishing Charge (APC: ~1,000 USD as of 2021) will be applied. The manuscripts should be submitted by **January 31, 2022** through Editorial Manager System of the journal, by selecting “**CPEG2020**” from the submission category. Please contact the Guest Associate Editor Takeshi Katsumi (katsumi.takeshi.6v@kyoto-u.ac.jp) for inquiries.

Guest Editors of this SI: *Takeshi Katsumi, Abdelmalek Bouazza, Andrea Dominijanni, Giancarlo Flores, & Toshifumi Mukunoki*

Soils and Foundations is the official journal of the Japanese Geotechnical Society, beginning its first publication in 1960, and full open access since 2020. A wide array articles, ~100 articles/yr, are accepted from all over the world (~80% from outside Japan). As of 2021, IF = 2.436 / 5-Year IF = 3.555.
